

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides me continuous, on-demand traffic and weather not available anywhere else on radio or TV. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what you permit me to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
